

Technical resume In Cement plants pollution control

REDMI NOTE 9 PRO
AI QUAD CAMERA

Introduction:

More than 25 years in theoretical and on the field experience in cement plant filtration solutions including design, fabrication, installation and part supply or implementing the officially issued standards. Exclusive and brilliant expertise in installation and repair and maintenance of Electro Filters.

-In 1994 I started my first activity in this field with Fars cement plant (a province in Iran) working shoulder to shoulder with supervisors of famous industrial filtration companies like FLS air tech, Redcam, Beth, Scheuch and Elex. Because of working with these people, I have started to learn latest updates and technologies in this field and was able to implement them in my own projects. I'm also the Founder of executive activities of filtration of Fars and Khuzestan CES engineering holdings 1998-2008.

Installation activities.

- Manager of the project of converting electrofilters of [Sepahan Cement company](#) line 1 and 2, to Hybrid filter 2007 .

- Manager of the workshop during electrofilters installation, execution, ducting and material conveying of [gray cement plant of Oromiyeh province](#) 2004.
- Manager of electrofilter installation and execution, ducting, and exhaust installation of Isfahan cement plant line 3 during 2005-2006.
- Project manager of electrofilter, cooling tower and hybrid filter installation of development plan of Sepahan cement holding during 2007-2008.
- Project manager of electrofilter and hybrid filter installation and ductings of [Khazar cement plant](#) production capacity improvement 2006.
- Project manager of electrofilter installation of line 4th along with fan and related equipment and ductings of [Abik cement plant](#) 2013-2014-
- Project manager of converting electro filter number 4 in line 2 of Abik cement plant from Lorgi to FLS 2012-
- Project manager in [Torbat-e-jam cement plant](#) during the installation of baghouse, air to air and cooling tower 2012-2013.
- Project manager in [Mazanderan cement plant](#) baghouse installation, electro filter disassemble and cooling tower installation during the upgrade of this plant 2008-2009/
- [Kangan cement plant](#) project manager during the installation and of two baghouses and their equipment 2009.
- Project manager during the installation of Shiraz glass wool factory 2010.
- Project manager of Sardar cement plant (Kavan Bokan) baghouse and electrofilter installation 2011-2012.
- Project manager of [Doroud cement plant](#) baghouse installation in line 2- 2005.
- Project manager during the installation of [Isfahan cement plant](#) electrofilters (Hamadani) 2008-2009.
- Project manager of [Zob-Ahan steel company](#) during the installation of a baghouse and Sulfor filtration equipment in steel production division. 2012-2013-
- Manager of Zob Ahan steel company during the installation of baghouses and equipment of triple agglomeration of this company. 2011
- Manager of upgrading regular baghouses of Zob Ahan steel company into Jetpulse bag houses 2009.
- Manager of repair and maintenance of ELEX electro filters in [Shargh Cement plant](#).
- Contractor of installation of [Darab cement plant](#) new electrofilter 2014-2015.

As a supervisor

- Supervisor in efficacy improvement of KHD filters of [Fars cement plant](#) 1998.
- Supervisor in fabrication and installation of hybrid filters of Fars cement plant 2000.
- Supervisor in fabrication and installation of Khatoon copper plant electrofilters installation 2001.
- Supervisor in [Oromiyeh cement plant](#) electrofilters fabrication, ductings and material conveying 2003.
- Supervisor in Doroud cement plant electrofilters fabrication 2004.
- Supervisor in Khazar cement plant electrofilters and hybrid filter fabrication and installation.
- Supervisor during the installation of electrofilters of [Ardestan cement plant](#).
- Supervisor in installation of electrofilter and cooling tower of Isfahan cement plant 2003.
- Supervisor in installation of electrofilter of Sarvoj cement plant 2006.
- Supervisor in fabrication of Fars cement plant electrofilters 2004.
- Supervisor fabrication of Sardar cement plant electrofilters 2009.
- Supervisor in repairing [Shargh cement plant](#) 2015.
- Supervisor in [Sabzevar cement plant](#) repair 2014

Activities and experience related to repair and overhaling he filtration systems.

- Workshop mannager during improvement of Abik cement plant 2001.
- Doroud cement plant raw line electrofilters repair and eficiency improvment 1999.
- Workshop mannager in Khatoon Abad copper compony for improvement and repair of their electrofilters 2005.
- Workshop mannager of Lar cement plant for improvement and repair of their electrofilters 2012.
- Workshop mannager of [Firooz Kooh cement plant](#) for repair and improvement of their electrofilters.
- Workshop mannager of [Bojnurd cement plant](#) for optmization and repairing of eletrofilters of raw line 2012.
- Workshop mannager of Darab cement plant for optimizing and repairing electrofilters.
- Workshop mannager of [Norht cement plant](#) for optimizing and repairing electrofilters of raw furance 2012.
- Workshop mannager of [Mashhad cement plant](#)(Shargh) for optimization and repairing electrofilters.
- Workshop mannager of Firooz kooh cement plant for improvement and repairing hybrid filters.
- Workshop mannager of Khazar cement plant hybrid filter eficiency improvement.
- Contractor of [Baharly-Torkamanestan Cement plant](#) electrofilter optimization.
- Contractor of Darab cement plant electrofilter repair.
- Consultant and contractor of Sepahan cement plant hybrid filters in part supply.
- Modification and repairment of Abik cement plant bagfilters.
- Contractor of Darab cement plant for repairing and improving electorfilters.
- Repairing ELEX3437 electrifilters of [Gol Gohar steel compony](#).
- Controctor of [Hormozgan cement plant](#) ELEX electrofilters.
- Controctor of Dashtestan cement plant ELEX electrofilters annual repair.
- Controctor of [Kordestan cement plant](#) electrofilters ovehaling and repair.
- Controctor of Dashtestan cement plant electrofilters ovehaling and repai.

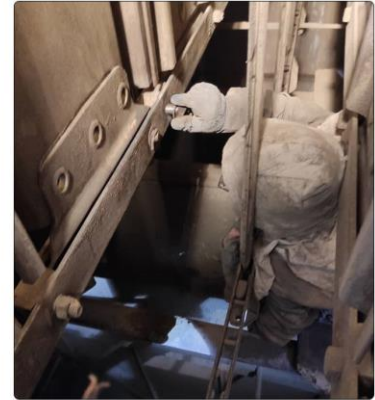

Maintaining electro filters:

Collecting plate replacement

Repairing rapping systems

Installing collecting systems

Acting as a supervisor and electro filter functionality tests.

Electro filters of:

Khatunabad Copper, Sarcheshmeh Copper, Neyriz Cement, Abik Cement, Lines 2 and 1 of Sepahan Cement, Lines 2 and 1 of Faars Cement and Lines 2, 1 and 7 of Doroud Cement, Asia Cement and old raw materials of Caspian Cement - Raw materials of Zanjan Cement - Gharb Cement - Zarian Cement, Kerman - North Cement Line 2 - Cooperation in the project of the comprehensive plan of environment and air pollution sources in Fars Cement - Ahak Zob Ahan unit, sfahan - Isfahan Zobahan 2 blast furnace - Kerman premium cement - Khash cement - Urmia cement

Measurement of process parameters:

Includes flow rate, temperature and dust concentration of flue gas analysis and inlet filters in factories: cement, steel, copper, lime, and gypsum and fiberglass from Cement: Fars Doroud - Abik - Sepahan - Isfahan - Urmia - Caspian lime steel unit - Khatunabad copper.

Educational activities:

- On job training of taskmaster personels in different projects.
- Training of Darab cement plant personels.
- Training on troubleshooting of electrofilter process cases to Bojnourd Cement personnel
- Training in filtration and principles of operation of dust collection equipment to Birjand refractory products personels.

Filtering consulting activity

- Advice on filtration of Shargh cement plant 2012-2013
- Advice on filtration of Oromiyeh cement plant 2013-2014-
- Advice on part supply for Sabzervar cement plant filtration system 2013-2014.
- Consultant of Sepahan cement plant 2013-2014.
- Consultant of Qadir engineering holding 2016-2020
